If you've been to Paris, you know that pigeons are everywhere and universally despised. They crowd the streets and are filthy, rude, and slovenly nuisances—much like Americans. It is 2006, and Joe, a young American historian, arrives in France to research the Reign of Terror, but is fixated on the War on Terror. The world trembles in discord, and Joe's foundation is disturbed. *Parisian Pigeon* brings the reader into a young man's consciousness, where spirituality wrestles with the pleasure principle. Wandering the streets of Paris, fumbling the language, his head divided against itself, he finds sanctuary in a bottle. The need to be with people and away from himself compels him to frequent an Irish pub. There he meets other young people who, stuck in dead-end jobs, distract themselves with drugs and alcohol. Along with Joe, they endure their dreams' autumn, a spiritless fall and last desperate attempt to be extra-ordinary. Witness the Parisian Pigeon's unraveling and the macabre denouement of his struggle to discover in himself what he cannot find in the world.
