**Universe Online - Enter the Game: Part 1** Ryan 'Viken' Henning

My name is Allec Renn, and I was born with ALS.

Even with our modern technology, amyotrophic lateral sclerosis cannot be treated or cured. I've been bed or chair bound since I was a kid. The advent of Virtual Reality technology has given me a chance for a new life. Or rather dozens of them. Heh.

I'm an avid gamer, and I wouldn't have it any other way.

In the games I could be what I wanted to be, who I wanted to be. A mighty warrior, a powerful spellcaster, the charming rogue. The crafter. The builder. All of those and more have helped to greatly alleviated my problems.

But a new game is coming out; one with the power to change the world. It uses a brand new technology, based around the first ever deep immersion Dive Pod. With it there is no more game lag or graphical limits. It is being heralded as the greatest breakthrough in Virtual Reality technologies since its founding.

And the first and only game for it: Universe Online.

No longer will players be stuck on a single large world to explore. No longer will there a limit to what you can do, what you can be. Fly spaceships between the stars, conquer planets, create custom technology. Mine, Build, Destroy. Explore. Rule.

This is my story, and my path in Universe Online.
