Logicworks 4 : Interactive Circuit Design Software for Windows and MacIntosh Capilano Computing Systems

LogicWorks is the schematic drawing and interactive circuit simulation package from Capilano Computing Systems that has set the standard for demonstrating digital logic design principles and practices while producing professional-level results. As circuit designs become more complex, software tools are taking on increasing importance in the system design process. LogicWorks 4 helps teach the concepts of using these tools in a variety of design situations in electrical and computer engineering, a nd computer science.With LogicWorks 4, installing and using this interactive tool has never been easier. The friendly user interface allows students to begin designing and testing circuits in minutes without the need for complex manuals. LogicWorks 4 builds on the success of the previous version by adding new features that expand the utility of the package beyond teaching digital design concepts. The software's new export capabilities means LogicWorks 4 can be used as the central design entry point for demonstrating a number of important design technologies such as analog systems, FPGAs, and VHDL synthesis.

From reader reviews:

Warren Damron:

Hey guys, do you would like to finds a new book you just read? May be the book with the title Logicworks 4 : Interactive Circuit Design Software for Windows and MacIntosh suitable to you? The book was written by popular writer in this era. Often the book untitled Logicworks 4 : Interactive Circuit Design Software for Windows and MacIntoshis the main of several books that everyone read now. This kind of book was inspired many people in the world. When you read this book you will enter the new way of measuring that you ever know ahead of. The author explained their thought in the simple way, thus all of people can easily to recognise the core of this publication. This book will give you a large amount of information about this world now. To help you to see the represented of the world in this particular book.

Katherine Levy:

Spent a free time to be fun activity to try and do! A lot of people spent their sparetime with their family, or their own friends. Usually they performing activity like watching television, going to beach, or picnic in the park. They actually doing same every week. Do you feel it? Do you need to something different to fill your personal free time/ holiday? Could be reading a book might be option to fill your free of charge time/ holiday. The first thing that you will ask may be what kinds of reserve that you should read. If you want to try look for book, may be the book untitled Logicworks 4 : Interactive Circuit Design Software for Windows and MacIntosh can be good book to read. May be it can be best activity to you.

Holly Silva:

Many people spending their time frame by playing outside having friends, fun activity together with family or just watching TV all day long. You can have new activity to spend your whole day by examining a book. Ugh, do you think reading a book really can hard because you have to bring the book everywhere? It okay you can have the e-book, delivering everywhere you want in your Smartphone. Like Logicworks 4 : Interactive Circuit Design Software for Windows and MacIntosh which is keeping the e-book version. So , try out this book? Let's see.

Elda Ornelas:

Is it anyone who having spare time and then spend it whole day by watching television programs or just laying on the bed? Do you need something new? This Logicworks 4 : Interactive Circuit Design Software for Windows and MacIntosh can be the solution, oh how comes? A fresh book you know. You are and so out of date, spending your spare time by reading in this brand-new era is common not a nerd activity. So what these textbooks have than the others?
