The Forex "Set & Forget" Profit System: It is VERY DIFFICULT TO LOSE with this extremely reliable trading system Mark Boardman

Who do you believe in the Forex Industry?

I have two quick questions for you. The first question may not appear to have anything to do with Forex trading, but I will explain why it does.

1. If you were part of a jury in a court of Law would you find someone guilty without any evidence?
2. Did you know that **90% of retail traders worldwide lose all their trading account money?**

The reason the first question is very relevant to Forex trading is that most of us (myself included in the past) have a tendency to believe what we read in books and on websites in the Forex industry. The books, software programs and Forex indicators often promise the earth, but have absolutely no **proof** that what they promote actually works. However we can all get seduced by the sales and marketing messages we read and many of us end up spending some (and in my case a lot) of money on numerous books, indicators and software programs.

Who shows real EVIDENCE?

In doing so we assume things are factual without any **EVIDENCE**. For that reason we should not have any complaints when we find that the things we buy do not help us to become consistently profitable traders. If we do not ensure that we have **EVIDENCE** before we make a decision to spend money, then it is **OUR** own fault if the products or services that we buy do not deliver what we were hoping for.

Is it therefore any wonder that 90% of all retail traders lose money?

We are all being sold stuff that sounds and looks great, but doesn't actually deliver results in the real world of Forex trading. Sadly the Forex industry is awash with people and companies that are all after our money, and they will say virtually anything to get it. How often have you seen a historical Forex chart showing a so called "successful trade" using some or other indicator, software program or trading strategy? My guess is that you have seen plenty. Is that **EVIDENCE** that a system actually works long term?

Your search for a Forex trading system with REAL EVIDENCE is over.

In my book, the Set & Forget profit system I explain how I use a very simple mathematical approach to

trading Forex that has all the **EVIDENCE** you could ever ask for.

For the last **TWO YEARS** I have been using the Set & Forget system **LIVE** in front of my trading room subscribers. I now have over **200 hours of recorded videos** showing the trades that I have taken using this system.

To my knowledge I am the only Forex trader in the world who videos my trades as I take them.

So I DO have REAL TIME EVIDENCE that my system works. I do not make claims that cannot be backed up with real PROOF of their efficacy. You can have total faith that what I say is true because I demonstrate my system every week LIVE in my trading rooms.

HOWEVER....please note this major caveat:

I have been trading for 10 years and I know hundreds of traders. I have not met one trader that has made consistent profits from reading a book, or any number of books. Nor have I met a trader that has made consistent profits from buying an indicator or an expert adviser or a piece of software.

In that respect my book is no different. It can help you stop losing, but to become consistently profitable takes many months of hard work.

When you buy my book you are paying for Chapter 9. It is Chapter 9 that will help you the most. You are paying the cost of a cup of coffee for one chapter that could save your account! The book has plenty of other content in it, but it is Chapter 9 that is crucial.

You can Google my name or Google "Forex Trader Mark" to find out more about me if you enjoy the book.

Buy it now if you want to learn how to stop losing!

Thanks

Mark Boardman
