## LC/MS Applications in Drug Development Mike S. Lee

Breakthroughs in combinatorial chemistry and molecular biology, as well as an overall industry trend toward accelerated development, mean the rate of sample generation now far exceeds the rate of sample analysis in the pursuit of producing new and better pharmaceuticals. LC/MS is an analytical tool that helps the researcher identify the most promising sample early in the selection process, effectively creating a shortcut to finding new drugs. This book is the first to describe LC/MS applications within the context of drug development, including the discovery, preclinical, clinical, and manufacturing phases.

In addition to the thorough technical analysis of this tool, *LC/MS Applications in Drug Development* provides perspective on the significant changes in strategies for pharmaceutical analysis. A process overview of drug development from an analytical point of view is provided along with essential data required to successfully bring a drug to market. The incorporation of LC/MS is illustrated from target to product. Chapters pertaining to the discovery process itself include:

- Proteomics
- Glycoprotein Mapping
- Natural Products Dereplication
- Lead Identification Screening
- Open-Access LC/MS
- In Vitro Drug Screening

Written for both the analytical chemist who uses LC/MS applications and the pharmaceutical scientist who works with the drugs they produce, *LC/MS Applications in Drug Development* is the premier reference on the subject.

### From reader reviews:

#### **Ella Butler:**

With other case, little people like to read book LC/MS Applications in Drug Development. You can choose the best book if you love reading a book. Given that we know about how is important some sort of book LC/MS Applications in Drug Development. You can add knowledge and of course you can around the world by way of a book. Absolutely right, since from book you can recognize everything! From your country till foreign or abroad you will find yourself known. About simple matter until wonderful thing you are able to know that. In this era, we can easily open a book or perhaps searching by internet system. It is called e-book. You should use it when you feel bored stiff to go to the library. Let's read.

#### **Jennifer David:**

This LC/MS Applications in Drug Development are generally reliable for you who want to be a successful person, why. The key reason why of this LC/MS Applications in Drug Development can be among the great books you must have is definitely giving you more than just simple reading through food but feed you with information that possibly will shock your earlier knowledge. This book is usually handy, you can bring it everywhere you go and whenever your conditions in the e-book and printed types. Beside that this LC/MS Applications in Drug Development giving you an enormous of experience for example rich vocabulary, giving you trial run of critical thinking that we all know it useful in your day action. So , let's have it and enjoy reading.

#### **Pamela Postma:**

Playing with family within a park, coming to see the sea world or hanging out with pals is thing that usually you may have done when you have spare time, in that case why you don't try thing that really opposite from that. Just one activity that make you not experiencing tired but still relaxing, trilling like on roller coaster you are ride on and with addition info. Even you love LC/MS Applications in Drug Development, you may enjoy both. It is great combination right, you still desire to miss it? What kind of hang-out type is it? Oh come on its mind hangout fellas. What? Still don't understand it, oh come on its named reading friends.

#### **Edward Sullivan:**

Do you like reading a reserve? Confuse to looking for your selected book? Or your book ended up being rare? Why so many problem for the book? But any people feel that they enjoy to get reading. Some people likes reading through, not only science book but novel and LC/MS Applications in Drug Development as well as others sources were given knowledge for you. After you know how the truly great a book, you feel need to read more and more. Science publication was created for teacher or even students especially. Those guides are helping them to include their knowledge. In various other case, beside science publication, any other book likes LC/MS Applications in Drug Development to make your spare time much more colorful. Many types of book like this one.
