Statistical and Adaptive Signal Processing: Spectral Estimation, Signal Modeling, Adaptive Filtering and Array Processing (Artech House Signal Processing Library)

Dimitris G. Manolakis, Dimitris Manolakis, Vinay K. Ingle, Stephen M. Kogon

Statistical and Adaptive Signal Processing: Spectral Estimation, Signal Modeling, Adaptive Filtering and Array Processing (Artech House Signal Processing Library) Dimitris G. Manolakis, Dimitris Manolakis, Vinay K. Ingle, Stephen M. Kogon

Signal processing is an essential topic for all practicing and aspiring electrical engineers to understand no matter what specific area they are involved in. Originally published by McGraw-Hill* and now reissued by Artech House, this definitive volume offers a unified, comprehensive and practical treatment of statistical and adaptive signal processing. Written by leading experts in industry and academia, the book covers the most important aspects of the subject, such as spectral estimation, signal modeling, adaptive filtering, and array processing. This unique resource provides balanced coverage of implementation issues, applications, and theory, making it a smart choice for professional engineers and students alike. The book presents clear examples, problem sets, and computer experiments that help readers master the material and learn how to implement various methods presented in the chapters. This invaluable reference also includes a set of Matlab[registered] functions that engineers can use to solve real-world problems in the field. The book is packed with over 3,000 equations and more than 300 illustrations.

From reader reviews:

Chad Foster:

Nowadays reading books are more than want or need but also turn into a life style. This reading practice give you lot of advantages. The huge benefits you got of course the knowledge even the information inside the book this improve your knowledge and information. The data you get based on what kind of reserve you read, if you want get more knowledge just go with education and learning books but if you want truly feel happy read one together with theme for entertaining including comic or novel. The particular Statistical and Adaptive Signal Processing: Spectral Estimation, Signal Modeling, Adaptive Filtering and Array Processing (Artech House Signal Processing Library) is kind of publication which is giving the reader unpredictable experience.

Shirley Cochran:

This book untitled Statistical and Adaptive Signal Processing: Spectral Estimation, Signal Modeling, Adaptive Filtering and Array Processing (Artech House Signal Processing Library) to be one of several books this best seller in this year, honestly, that is because when you read this e-book you can get a lot of benefit onto it. You will easily to buy this book in the book shop or you can order it by way of online. The publisher with this book sells the e-book too. It makes you more readily to read this book, as you can read this book in your Smart phone. So there is no reason for your requirements to past this guide from your list.

Donna Dalessio:

Reading a e-book can be one of a lot of pastime that everyone in the world loves. Do you like reading book so. There are a lot of reasons why people love it. First reading a reserve will give you a lot of new information. When you read a book you will get new information because book is one of many ways to share the information or their idea. Second, reading through a book will make an individual more imaginative. When you examining a book especially fictional works book the author will bring you to imagine the story how the character types do it anything. Third, you could share your knowledge to others. When you read this Statistical and Adaptive Signal Processing: Spectral Estimation, Signal Modeling, Adaptive Filtering and Array Processing (Artech House Signal Processing Library), you can tells your family, friends as well as soon about yours guide. Your knowledge can inspire different ones, make them reading a publication.

Johnny Abel:

The reserve with title Statistical and Adaptive Signal Processing: Spectral Estimation, Signal Modeling, Adaptive Filtering and Array Processing (Artech House Signal Processing Library) includes a lot of information that you can understand it. You can get a lot of help after read this book. This specific book exist new know-how the information that exist in this guide represented the condition of the world today. That is important to yo7u to know how the improvement of the world. This kind of book will bring you in new era
