The Life Cycle Of Science - Interesting Facts About Science Jeremy Baker, Erin Burton

"There was a time when the newspapers said that only twelve men acknowledged the theory of relativity. I don't believe that there ever was such a time... On the other hand, I think it is safe to say that no one understands quantum mechanics... Don't keep saying to yourself, if you can possibly avert it, 'But how can it be like that?', because you will get 'down the drain' into a blind alley from which nobody has yet escaped. Nobody knows how it could be like that."

R. P. Feynman (1967)

Table of Contents:

The Life Cycle Of Science

The Odd Seven Continents Theory

The Origins Of Biological And Chemical Warfare

The Role Of Private Enterprise In Putting Man Into Space

The Science Of Astronomy Really Is Fascinating
