RFID for Energy & Utility Industries Prosenjit Sen, Dipankar Sen, Anand Das
Although radio frequency identification (RFID) has been used for decades, the technology is just now
gaining momentum in the energy industry. Power plants can employ RFID for everything from security for
the workforce, tracking fuel consumption, and even monitoring plant exhaust. The applications for RFID are
endless, and the technology is applicable in nearly every field. Lead authors Dipankar Sen, Prosenjit Sen,
and Anand Das bring years of entrepreneurial experience with RFID technology to this primer for plant
foremen, system engineers and those decision-makers looking to enhance operational efficiency.
